Mythical \rightarrow Immortal

\neg Mythical $\rightarrow \neg$ Immortal \wedge Mammal

Immortal \vee Mammal \rightarrow Horned

Horned \rightarrow Magical

Given

1. \neg Mythical \vee Immortal
2. Mythical \vee (\neg Immortal \wedge Mammal)
3. \neg (Immortal \vee Mammal) \vee Horned
4. \neg Horned \vee Magical

Resche 1+2 5. (~~\neg Mythical \vee Immortal~~) \wedge (~~Mythical \vee (\neg Immortal \wedge Mammal)~~)
 \equiv Immortal \vee (\neg Immortal \wedge Mammal) \equiv Immortal \vee Mammal

Resche 3+5 6. [~~\neg (Immortal \vee Mammal) \vee Horned~~] \wedge (~~Immortal \vee Mammal~~) \equiv Horned

Resche 4+6 7. ~~\neg Horned \vee Magical \wedge Horned~~ \equiv Magical.

You can prove the unicorn is magical and horned, but cannot prove if it is mythical.
